

Manuscript Title for Nano Letters

First Author, Second Author, and Corresponding Author*

Department / Institute, University, City, Country

*Corresponding author: author@example.edu

Abstract

Provide the manuscript abstract.

Keywords

nanoscience; nanomaterials; spectroscopy; characterization

1 Introduction

Scientific context and motivation in previous work.

2 Experimental / Methods

Describe synthesis, fabrication, characterization, simulations, and statistical methods.

3 Results and Discussion

Present results with figures and tables close to the relevant discussion.

4 Conclusions

State the main conclusions and implications.

Supporting Information

Describe any supporting information files.

Author Information

Corresponding Author: author@example.edu

Acknowledgements

Funding, facilities, and acknowledgements.
